

### **Arts in Education Grant Guidelines and Eligibility**

AiE funds are intended to engage teaching artists, arts organizations or to underwrite arts-related field trips. The AiE program is designed to cover additional arts instruction in the schools such as from a visiting artist—to supplement the programs in place.

Prospective applicants should feel free to contact us for teaching artist information or recommendations.

Schools and other educational institutions located in Frederick County are eligible for Arts in Education grants.

Schools may submit up to two grants each academic year; the maximum amount of each grant is typically \$500 and must be matched 1:1.

Grants are accepted on a rolling basis until the annual budget has been exhausted.

It is strongly encouraged that grant applications be submitted at least 30 days prior to the planned arts activity.

A contract must be received prior to receiving disbursement of funds.

A Final Report Form is due upon completion of the project.

Please contact Louise Kennelly, FAC Executive Director, via email at [info@frederickartscouncil.org](mailto:info@frederickartscouncil.org) if you have any questions or need assistance in completing this application.
