Artist Opportunity: Artist of the Month Program with Cowork Frederick

Cowork Frederick's Artist of the Month program supports up-and-coming local Frederick County artists by providing them an opportunity to exhibit and sell their work without the usual commission or fees. The program also brings ever-changing local art to the walls of Cowork Frederick for a more creative, vibrant work environment.

As part of the program, artists participate in a Frederick Artists Night (FAN) event with an exhibit and reception open to the public, along with live music from local singer-songwriters.

Cowork Frederick is particularly interested in artists who may not have had a chance to have an exhibition of their own yet.

Symbiosis

Hood College
Hodson Gallery at
Tatem Arts Center

Symbiosis

The interaction and mutual relationship
between organisms that live or grow near
each other.

"Symbiosis" comments on parallels between growth patterns in small organisms and the philosophical and emotional growth of human beings. Each piece brings attention to earth's daily growths that often go unnoticed, such as a group of polyps building up into a coral reef, or a small seed growing into spreading foliage. By focusing on non-emotional and non-human areas of growth as a subject matter, "Symbiosis" works to explore the emotional and often messy philosophies surrounding human growth and what it means to be human.

Through exploratory research, the work in "Symbiosis" looks at different forms of oceanic and vegetative growth. Each piece focuses on repetition through the movement, color, texture and forms so that the process becomes a form of meditation. Featuring bright and contrasting color schemes of growths against simple white forms, the series works to juxtapose the ways in which these forms grow in the natural world- as they are often looked over and passed by as we go about our busy daily lives.
